Plan (**FUTREBR**) with inclusion of the Scotlandville Comprehensive Community Development Plan (SCCDP)

### FEEBACK TOUR AND DESIGN CHARRETTE

The U+R CDRC has begun to develop different alternatives for the Scotlandville Comprehensive Community Development Plan (SCCDP). The information gathered during the Listening Tour, Vision Workshops, and the conceptual ideas/plan generated during the Planning Charrette (April 13-17, 2010), laid the framework for the development alternatives. The alternatives will be complete in a few weeks, in order to begin a three week Feedback Tour (**October 26, November 2, and November 9**), to gather input from residents on the "best and worst" aspects of each alternative. The first Feedback Tour will take place at the Scotlandville Library on Tuesday, October 26, at 6 pm, just following the monthly CADAV meeting. After the Feedback Tour, a Scotlandville

Conceptual Community Plan Map created during the Scotlandville Community Planning Charrette, April 13-17, 2010.

Community Design Charrette will be held, **Tuesday November 16 - Saturday November 20, 2010**, at Southern University School of Architecture. The Design Charrette will further develop the conceptual plan and begin the process of setting priorities, defining action steps and implementation measures, funding strategies, and monitoring of the final plan development. We want to hear from you and need your participation as we begin to develop **Your Plan** for the future of Scotlandville. **Parking passes are available for the Design Charrette. Food will be served throughout the 5-day design charrette and snacks will be served during the Feedback Tour.** For more information visit <http://www.urcdrc.org> or call Lonnie Wilkinson, Jin Lee, Archie Tiner or Jason Lockhart at 225.771.3574.

### NEW STUDENT MEMBERS OF THE U+R CDRC

In the August 2010 edition, we introduced the student leadership for the U+R CDRC. Now meet the rest of the students that make up the team that will assist in making Louisiana a better place to live, work, shop and play.

### COMMUNITY CLEANUP

Saturday September 18, 2010, students and teachers from Southern University, along with community volunteers worked together to cut grass and clean eight lots along Goudchaux Street, from Scenic Hwy to Pembroke Street, the "SCENIC SWEEP" cleanup. This was a part of the Keep Baton Rouge Beautiful campaign.

**DESIGN ALTERNATIVES**

When developing a plan for a community, there is no such thing as one plan fits all. Every community is different, and therefore a plan must represent the community and its character, which makes a community unique. Design alternatives allow community members options to look at when providing input to design professionals in regards to the "best and worst" aspects of each alternative. This process assist design professionals in developing the best possible plan for the community as a whole. No plan is perfect, but one that engages the community and stakeholders, has the best chance to succeed and address the issues of the people in the community.

Newsletter Committee Members: Faculty Editor, Jason Lockhart; Student Editors, Khrystina London & Lauren Edwards; Faculty & Staff Reviewers, Jin Lee, Archie Tiner, Betty Howard, and the Dean of the School of Architecture & Director of U+R CDRC, Lonnie Wilkinson.
